CONSERVATIVE POLITICAL ACTION CONFERENCE

MARCH 14-16 ★ WASHINGTON, DC

GAYLORD NATIONAL RESORT AND CONVENTION CENTER, NATIONAL HARBOR, MARYLAND

## TOP CONSERVATIVES UNDER 40

Dear Fellow Conservatives,

Our principles are timeless, but today we face new challenges – those which we must help the next leaders to overcome. On this important 40th anniversary of CPAC, you will see our agenda reflects our commitment to our conservative founders, but offers a renewed focus on young leaders -- to ensure they have the tools they need to succeed.

In the spirit of this year's Conservative Political Action Conference theme "America's Future: The Next Generation of Conservatives. New Challenges, Timeless Principles," the American Conservative Union would like to introduce you to 10 conservative elected leaders under age of 40 from across the nation.

The depth and diversity of the conservative movement's bench provides hope for America's future as we face new challenges, and is reflected at CPAC this year especially. As some of the youngest leaders in their states, these conservatives are committed to the timeless principles and future of our nation.

Join me in welcoming these leaders to CPAC and congratulating them on their accomplishments. I wish them continued success as they lead during these difficult times and advocate for conservatism.

As leaders like these young conservatives stand up across the nation, I am reassured that America's greatest days are still ahead.

Sincerely,  
Al Cardenas  
Chairman, The American Conservative Union

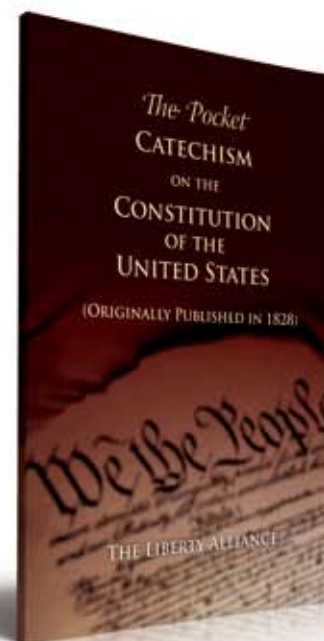

Your elected officials have sworn to uphold and defend the Constitution. Do you know if they are keeping their word?

## The Honorable Michael Caldwell, Georgia House of Representatives

Michael Caldwell, 23, is the Republican Representative for Georgia State House, District 20. Michael and his wife Katie were both raised in Cherokee County, Georgia. After having received his education from Cherokee County Public Schools, Michael earned his Business Finance degree from Kennesaw State University in less than three years. Michael remains involved in Cherokee County's educational system by maintaining an active relationship with School Board members and attend-

ing nearly every School Board Meeting as he has done for the past few years. Michael and Katie are lifelong members of Hillside United Methodist Church, and have both been very active volunteers with the church's youth programs. Michael completed a five year job with the church during high school and college which allowed him the opportunity to work with thousands of Cherokee County's seventh and eighth grade students. Michael is currently working for Python Safety, Inc., a

Cherokee County based company selling safety equipment to the nuclear industry. From finishing his four-year degree in two years and eight months, to hand copying the New Testament, to working with thousands of Cherokee County's middle school students through Hillside UMC, Michael is a dedicated over-achiever. Michael Caldwell will be your working citizen legislator at the Capitol for the 2013-2014 legislative session.

## The Honorable Art Linares, Connecticut Senate

Art Linares, 24, is State Senator for the 33rd Senate District, which encompasses the towns of Chester, Clinton, Colchester, Deep River, East Haddam, East Hampton, Essex, Haddam, Lyme, Old Saybrook, Portland, and Westbrook. A Westbrook resident, Sen. Linares is Ranking Member of the Connecticut General Assembly's Banks Committee and Ranking Member of the Select Committee on Children. Linares also serves on the Commerce and Education Committees. Senator Linares' values stem from his family's history. In 1961, a force of exiles trained by the CIA stormed Cuba in an attempt to free the country from a communist dictator Fidel Castro.

After the invasion failed, Sen. Linares' grandparents fled the country they loved in order to assure that their children were safe and able to grow up in a free country. In America, Sen. Linares's father started a successful business, and that success inspired Sen. Linares to start a business out of his basement when he was 19 years old. Senator Linares co-founded Greenskies, a successful, Middletown-based, commercial solar energy company. In 2010, Sen. Linares took a sabbatical from his solar power company to volunteer for U.S. Senator Marco Rubio in Washington D.C. He proudly assisted Senator Rubio, gaining hands-on experience in public service by

providing help to the senator's constituents, conducting research and performing various administrative duties vital to the function of a public office. That positive experience working for Senator Rubio inspired Sen. Linares to get involved in public service upon returning to Connecticut. Sen. Linares attended Westbrook public schools and graduated from the Sykes College of Business at the University of Tampa in Florida, where he majored in entrepreneurship, developing his own company as he earned a college degree.

## The Honorable Nicole Malliotakis, New York State Assembly

Nicole Malliotakis was elected to the State Assembly on November 2, 2010. A lifelong resident of the 60th District, Nicole attended P.S. 53, I.S. 24, and New Dorp High School. She was the first in her family to graduate from college, earning a B.A. from Seton Hall University and an M.B.A. from Wagner College. As a liaison for the late Senator John Marchi and Governor George Pataki, Nicole worked with civic groups, not-

for-profits, and government agencies to enhance our quality of life. Prior to taking office, Nicole focused on the state's energy, economic and environmental policies as a public affairs manager, while working with community organizations and elected officials to make Brooklyn and Staten Island better places to work, live, and raise a family. Nicole is the daughter of immigrants. Her father is from Greece and her mother is a Cuban exile of the Castro dictatorship. Her parents came to New York in search of the American Dream, and through their hard work, they attained

a modest living as owners of a small business in Brooklyn. Their dedication and entrepreneurial spirit instilled a sense of ambition in Nicole that has inspired her life in public service. Nicole has proven to be a strong, independent voice in state government, always representing the best interests of her constituents. She has displayed an understanding of what it takes to provide a positive environment for both large and small businesses to spur job growth and revitalize New York's economy. As an outspoken advocate for New York City commuters, Nicole is fighting to reduce the unfair burden placed on her constituents by the Metropolitan Transportation Authority (MTA) and the Port Authority of New York & New Jersey. She has worked with legislative colleagues and civic leaders to combat both agencies' structures and halt fare hikes and service reductions that have unfairly burdened Staten Islanders and Brooklynites. In an effort to provide a brighter future for Staten Island and Brooklyn children, Nicole is committed to strengthening the laws that protect our schools and communities from dangerous criminals. She has been at the forefront of efforts to crack down on crime at all levels, especially against children. Whether it's advocating for tougher penalties on drunk drivers or child abusers, Nicole has consistently fought to provide a safe, happy and healthy community for our children. Nicole is deeply attuned to

the needs of our community's senior citizens. Throughout her first year in office, she has been a passionate defender of the programs and services that our elderly population relies on by leading the fight against funding cuts to senior centers and improving Access-A-Ride. Nicole was a tireless advocate in support of legislation that prohibits insurers from mandating that their insured use mail-order for prescription medication, allowing seniors to visit their local pharmacies and get the one-on-one consultation they need. She is also the sponsor of legislation to increase penalties against criminals who seek to abuse the elderly. During her first year in the State Assembly, Nicole received a number of awards from various organizations. She was named a Rising Star by the Capitol newspaper and a Top Ranking Pro Jobs Supporter by The Business Council of New York State, Inc. She also received special recognition at the 2011 Women of Achievement Awards by the Staten Island Advance. Nicole was presented with the 2011 "Special Outstanding Community Service" award by the South Beach Civic Association and an "Award of Gratitude" by the Order of AHEPA for serving as the honorary speaker at their 2011 AHEPA Scholarship Awards Graduation, as well as her contributions to the Hellenic community.

## The Honorable John B. McCuskey, West Virginia House of Delegates

JB was born in Bridgeport, WV and grew up in Charleston attending Overbrook Elementary, John Adams Junior High and graduating from George Washington High School. JB earned his bachelor's degree in Political Communication from The George Washington University in Washington, DC. While in DC, JB worked for The Honorable Charlotte Lane, a former United States International Trade Commissioner. It was during this time period that JB began a lifelong relationship with

The American Center for Law and Justice (ACLJ) in both Government Affairs and as a Legal Clerk. After graduation, JB worked at The Pentagon for The Department of Army and the Department of Defense. JB worked in the Offices of The Army General Counsel and the Department of Defense General Counsel. Working so closely with members of the armed forces, JB was inspired to serve his community because of the hard work and sacrifice exhibited by the service men and

women. JB returned to West Virginia and graduated from West Virginia University College of Law in 2009. He entered private practice with his father at Shuman McCuskey & Slicer PLLC. In 2011, JB joined the law firm of Steptoe & Johnson PLLC where he is a member of their energy litigation practice group. JB and his wife, Wendy McCuskey, reside in Charleston, WV with their dog Sidney. Wendy McCuskey is the President of the Associated Builders and Contractors of West Virginia.

## The Honorable Beau McCoy, Nebraska Senate

Beau McCoy and his wife Shauna have four young children, Audrey, Ryan, Nora, and Tess. They consider themselves fortunate to be part of the growing number of Nebraskans that live, work, and raise their families in District

39. Beau has deep roots in agriculture, having been raised on the family cattle ranch that has been in existence for four generations. Beau is a graduate of Bellevue University where he received his Bachelor of Arts in Leadership. Having spent more than a decade in the home improvement and building contracting industry, he has played a key role in the growth and expansion of several area businesses. As a small business owner and working as a home improvement contractor, Beau McCoy understands the concerns and needs facing the residents of the district. As State Senator representing District 39, Beau has proposed and helped pass key legislation that protects our families, businesses and Nebraska values. Elected to the Nebraska Legislature in 2008 Beau currently serves as Vice Chairman on the Banking, Commerce and Insurance Committee and on the Natural Resources Committee. He also serves on the Council of State Governments Midwest Executive Committee, Economic Development Committee and Innovations Committee.

39. Beau has deep roots in agriculture, having been raised on the family cattle ranch that has been in existence for four generations. Beau is a graduate of Bellevue University where he

## The Honorable Clarence Mingo, Franklin County (OH) Auditor

Auditor Clarence Mingo's life and career have been about service to his country and his community. A veteran of the United States Army, Clarence answered the call of service and served honorably with the coalition forces that liberated

Kuwait during the 1991 Persian Gulf War. Upon his return, Clarence attended The Ohio State University where he earned his undergraduate and law degree in a little more than five years. Clarence then re-focused his commitment to service to his community as an attorney in private practice, helping to protect those citizens most in need. Franklin County courts frequently appointed Clarence to serve as a Guardian ad Litem (child advocate), representing the interests of children in abuse, neglect and divorce cases. He also serviced the Legal Aid Society of Columbus' Neighborhood Service's project. In this capacity, Clarence was one of three attorneys who represented indigent county residents with legal issues involving housing, public benefits, bankruptcy, expungements, civil protective orders, and custody matters. He also fought for funding in an effort to expand and further develop the project's reach and influence on the indigent population in Franklin County. In 2007, the late Chief Justice of the Ohio Supreme Court, Thomas J. Moyer, appointed Clarence as a commissioner in the Ohio Court of Claims. Clarence served as one of seven commissioners with statewide appellate jurisdiction in victims of crime cases. In 2009, Clarence was appointed as Franklin County Auditor. In 2010, Franklin County voters awarded Clarence a full four-year term. As Auditor, Clarence ensures that Franklin County residents are offered the best public service in fiscal, real estate and consumer protection. He understands the importance of maintaining a modern office with capable staff and the latest technology to compliment their effort. Clarence is committed to seeking new and innovative ways to expand the services of the Auditor's office to each resident of Franklin County. A strong fiscal conservative, Clarence will look for ways to streamline county government and always put the interests of taxpayers first. Clarence and his wife Angela married in 1992. They are the proud parents of Annalise (age 7) and Ava (age 5) Mingo. The family resides in New Albany, Ohio and look forward to greater opportunities for service.

## The Honorable **Lisa Posthumus Lyons**, Assistant Majority Leader, Michigan House of Representatives

State Representative Lisa Posthumus Lyons was first elected in 2010 to the Michigan House representing the residents of eastern Kent County. Representative Lyons was then re-elected to serve the residents of the 86th District in 2012, however the districts apportionment has changed. The 86th House district now makes up portions of Kent and Ionia County including the cities of Belding, Ionia and

Lowell as well as the townships of Easton, Ionia, Orleans, Otisco, Ada, Bowne, Caledonia, Cascade, Grattan, Lowell and Vergennes. Representative Lyons was formerly the Director of Public Policy &

Community Outreach for the Grand Rapids Association of Realtors and the Commercial Alliance of Realtors. Prior to that, Lyons managed a House campaign and worked as a staff member in the Michigan House and Senate. There, she gained a first-hand knowledge and understanding of the legislative process. For the 2013-14 legislative term, Lyons will chair the House Education Committee and the Elections and Ethics Committee. She also will serve on the committees on Financial Services; Insurance; Tax Policy; and the Legislative Council. Representative Lyons is a life-long resident of West Michigan. She is the fourth generation to own their family's family farm in Alto, Michigan. She married her high school sweetheart Brad, who is a Deputy Sheriff in Kent County. Together they are raising their four children: Easton, Charlie, Gage, and Fisher. She spends her spare time coaching the kids' YMCA soccer team, and enjoying Michigan's great outdoors with her family, going fishing, hunting, and exploring. Her family praises and worships

at Ada Bible Church. Representative Lyons graduated from Lowell High School and received her Bachelor's Degree from Michigan State University, where she majored in Agricultural & Natural Resources Communications. She spent time overseas studying food and agricultural systems in Ireland, Scotland, and England. Representative Lyons believes that citizens have a responsibility to serve their community, state, and nation. Lyons formerly served as Secretary of the Bowne Township Planning Commission, striving to ensure the township is a great place to work, live, and raise a family through common sense policy decisions. She has also served on the Board of Directors for Alpha Women's Center in Grand Rapids, a crisis pregnancy counseling center whose mission is to show compassion and love to families facing unplanned pregnancy and to seek mercy for the unborn. She is also privileged to serve as a member of the American Legion Auxiliary Post 305 for many years.

## The Honorable **T.W. Shannon**, Speaker of the House, Oklahoma House of Representatives

In a historic ceremony on January 8, 2013, T.W. took the oath of office to be Oklahoma's Speaker of the House. Speaker T.W. Shannon hopes his mark is made by his quest to restore strong families, and to inspire the challenge of prosperity through personal responsibility. T.W. found success early in life. He earned a bachelors of arts degree in communications from Cameron University and holds a juris doctorate from Oklahoma City University Law School. He worked as a field representative for former Congressman J.C. Watts a decade ago and served in the same position for Congressman Tom Cole the following two years. An enrolled member of the Chickasaw Nation, T.W. worked as the chief administrative officer for Chickasaw Nation

Enterprises. Today, he operates a home-based public relations business. T.W. was elected to the Oklahoma House of Representative from his hometown of Lawton in 2006. T.W. serves as a youth Sunday school teacher at Bethlehem Baptist Church in Lawton. He has been married to his college sweetheart, Devon, for 11 years and they have two children, Audrey Grace and T.W. II. Considered a champion for limited government, T.W. has more than earned the trust of his colleagues. T.W. quickly rose to leadership in the state House, where he served as deputy majority whip in his first term, chaired the powerful transportation committee in only his second term and was elected speaker-designate in his third term. T.W. has been a champion for the state's natural

gas industry, reducing the tax on compressed natural gas, a plentiful Oklahoma resource. He again made a mark recently by pushing to liquidate excess state-owned property. He earned high praise and editorial support from both of the state's two major newspapers. In the process, the trailblazing conservative uncovered that bureaucrats were grossly under-reporting the number of state-owned assets. T.W. also crafted an eight-year plan to rebuild Oklahoma's structurally deficient bridges. GOPAC, an organization whose mission it is to support up-and-coming Republican leaders, recently added this proud Oklahoman to its national advisory board.

## The Honorable **Will Weatherford**, Speaker of the House, Florida House of Representatives

State Representative Will Weatherford grew up in Pasco County raised by dedicated parents in a family of nine children. He graduated from Land O' Lakes High School and Jacksonville University where he played football and received his bachelor's degree in Business Administration. Will is married to Courtney Bense of Panama City, Florida. The Weatherford's have two daughters Ella Kate and Molly Marie. Will was elected in 2006 to the Florida House of Representatives. He

is slated to become Speaker of the House in 2012. Weatherford is the Chair of the Redistricting Committee, leading the effort to redraw Florida's legislative and Congressional districts. He also serves on the powerful Rules & Calendar Committee. Representative Weatherford has spearheaded many important legislative issues during the last five years with a particular focus on advancing school choice and improving education accountability. In addition to his state service,

Representative Weatherford is an active member of his community. He serves on organizations such as Big Brothers Big Sisters of Florida, Central Pasco Chamber of Commerce, Commission on Open Government, Goodwill Industries, Greater Dade City Chamber of Commerce, Jobs for America's Graduates, Pasco County Take Stock in Children Program, The Fund for American Studies, Wesley Chapel Chamber of Commerce, Workforce Housing Ventures, Inc, and Zephyrhills Chamber of Commerce.

## Councilmember **Jeremy B. Yamaguchi**, Placentia, California

Councilmember Jeremy Yamaguchi is one of the youngest elected officials in the State of California and the youngest in Orange County history. He was elected in November 2008 at the age of 19 to the Placentia City Council for a term of four years. Yamaguchi ran in a race with six candidates for three open seats in which he received the highest total vote count. He holds an extensive background in community affairs and volunteer work. Some of his involvements include Placentia Neighborhood Watch, Placentia Heritage Parade

& Festival, Placentia Cultural Arts Commission, Placentia Chamber of Commerce, Placentia Police Department, and the Boy Scouts of America. The Placentia Chamber of Commerce honored Jeremy as the Citizen of the Year in 2006 for his volunteer efforts in the community, the youngest to receive the honor in history. He also received the Presidential Gold Volunteer Service Award from a nomination by the Disneyland Resort. In 2009, Jeremy was honored by the Center for Asian Americans United for Self Empowerment (CAUSE) with the prestigious Rising Star Award. Yamaguchi earned his Eagle Scout award in 2006 and was chosen in 2007 as the California Scout of the year by the Veterans of Foreign Wars. In 2008 he served as the Lodge Chief and a member of the board of directors for the Boy Scouts of America Orange County Council. As lodge chief, Yamaguchi lead Boy Scouts throughout the county to garner in excess of twenty thousand community service hours. In

2009 he served as the Southern California representative to the national Boy Scouts of America for the Order of the Arrow program. In his first year in office Jeremy played a crucial role in drafting and adopting Placentia's first mission and vision statement: "The City Council is committed to keeping Placentia a pleasant place by providing a safe family atmosphere, superior public services and policies that promote the highest standards of community life." Yamaguchi currently serves on the City of Placentia recycle committee, Board of Directors of the Placentia Community Foundation, and the California Republican Party Central Committee. Yamaguchi's personal motto is "I have pride in our past, faith in our future and a vision for a more stable and secure community."

Without the 2nd Amendment, the 1st Amendment would have been long ago abolished.

**BUY ALL  
THREE AND  
SAVE \$40**

# THE CANCER VIRUS ANSWER?

## Who would know better than the founder of the American Cancer Society?

Elmer Bobst, a pharmaceutical pioneer who started Warner Lambert (Lipitor) now Pfizer, THE NATIONAL CANCER SOCIETY and his Director of International Sales (who turned out to be an important CIA Operative) said 50 years ago at my home: “Millions of people will get cancer as soon as a MIXTURE of all these drugs and viruses flushed into our ground water reappear in our water supplies! Ordinary water products are useless! You could “cure anything” if you 1) Change the PROPERTIES of water and 2) Subject water to INTENSE ultraviolet radiation and HEAT 100’s of times per gallon (NOT ONCE!!). THAT’S WHAT I HAVE DONE! THEY WERE RIGHT! Now, after being flushed into our aquifers, drugs have spread from our spring water, bottled water and well water to our municipal water systems (Associated Press testing 2/10/08)! Call us!! 85% of our Bottled Water customers are RETURN CUSTOMERS or they buy a machine!

FRANKLIN DELANO ROOSEVELT AND HIS CLOSE FRIEND \*WILLIAM FRANK SNYDER, THE EXECUTOR OF HIS ESTATE WHO ALSO WROTE HIS WILL, WAS A FAMILY FRIEND THAT HAD ALSO BEEN INFECTED BY THE WATER BORNE POLIO VIRUS BECAUSE SCIENTISTS DIDN’T KNOW HOW TO KILL VIRUSES AND CHANGE WATER PROPERTIES! \*His wife Bea said to my mother (from a book about Americana, the untold stories, below): “Harvard called and asked if they could have over 100 of the Roosevelt letters for their archives and I told them I threw them away because they are personal letters that are nobody’s business!” My mother was horrified but I believe that she didn’t want the letters “mined” to smear President Roosevelt like letters about espionage written by Elmer Bobst to Richard Nixon (the Godfather of the Nixon Presidency)! Now, it’s irrefutable that our enemies have gone from espionage to events like 9/11 (FBI reports). My brother Richard Ellis (a major player in commercial real estate had over one million sq. ft. leased in the WTC when it came down, below). Products that process water ONLY ONCE (even 10 times) don’t allow enough Destruction Time to kill cancer Viruses & Bacteria! Our countertop home machine froths them to the surface in the boiler where we hit them with high intensity ultraviolet modular frequency and heat 100’s of times per gallon (NOT ONCE!!) until the hydrogen bond angle opens up from 104 degrees in ordinary water to 114 Degrees! SINCE YOUR BLOOD IS 94% WATER, AN M.D. THAT TAUGHT AT THE UCLA MEDICAL SCHOOL SAID: “UNLIKE UNMEASURABLE “CLAIMS”, NOBODY CAN ARGUE WITH SOMETHING YOU CAN MEASURE.

**Watch an online video of John Ellis, 82 year old Inventor**

**[www.WaterCuresAnything.com](http://www.WaterCuresAnything.com)**  
**Order a machine 845-754-8696**

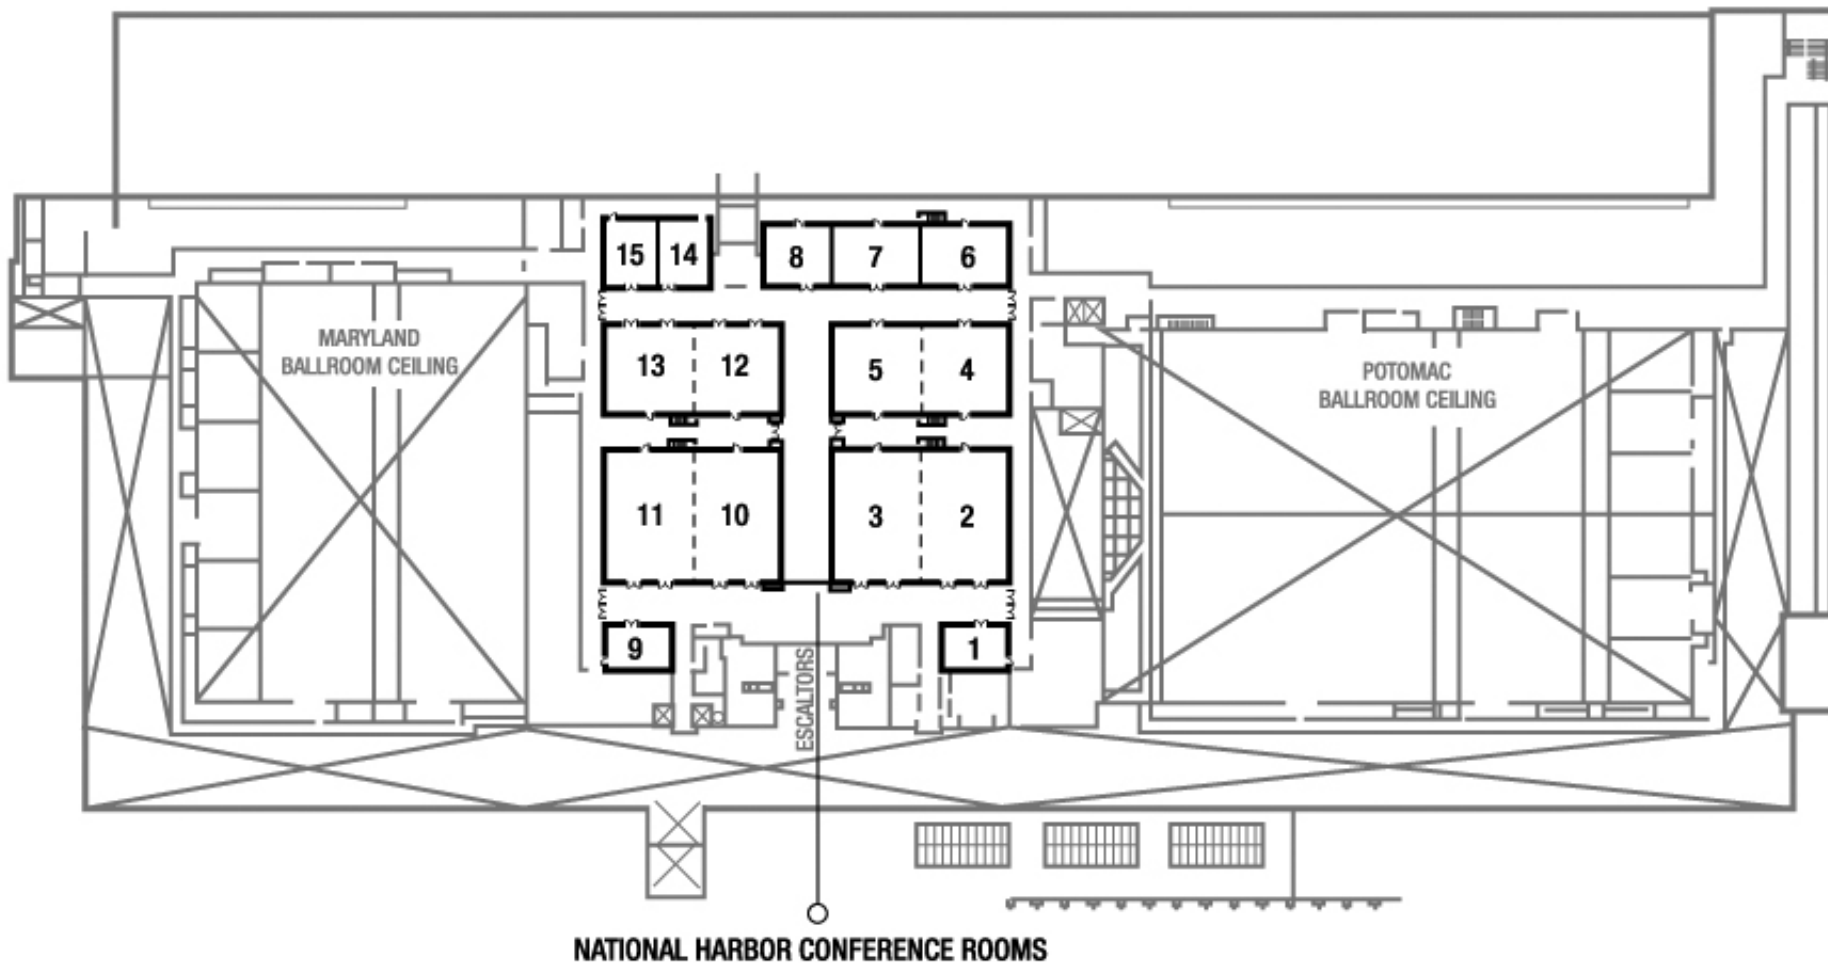

**About John Ellis Water®** . . . The 82 year old inventor is a Choate School and Lafayette College Engineering graduate. At just 17 years old, he invented a scientific measuring device that is still used worldwide. After working as an Oil Well Engineer, a Design Engineer at Douglas Aerospace and Honeywell Engineer, he started his own business at age 30 and invented a switch that operates (on-off) within .0001 of an inch. Honeywell and Military/Industrial users say, “*He’s the only person that knows how to produce it!*” Likewise, textbook sciences claim “*you can’t change water properties*” but **John Ellis HAS changed the properties of water...for the benefit of all mankind!**

NOTHING IS EVEN CLOSE TO YOUR WATER FOR BLOOD FLOW TO THE EXTREMITIES! YOU HAVE CHANGED THE HYDROGEN BOND ANGLE FROM 104° TO 114°!!” He immediately bought more Electron 5 home water machines to take to Israel. Regulators let us use this because the blood flow results can be measured non-invasively on the SKIN (Doppler Ultrasound)! As the results poured in, we wondered if our machines would help the 9/11 victims! Accordingly, I asked my brother Richard Ellis how to reach these people. He suggested scientific magazines based in NYC that are also read by the police and fire responders. We ran full page ads for 3 years. All the American owned publications carried our recent ads with the SPECTACULAR RESULTS except a popular scientific magazine that is no longer American owned.

However, you can look at the EVIDENCE of the successful results....the superimposed picture of the Gatehouse Entrance to our 418 acre \$100 million property on top of a mountain we bought overlooking the Delaware River that is being donated to further Cancer Research! An Oncologist (on our website): “I just retired from Sloan Kettering after 30 years and I don’t have access to your machine anymore. Send me your E5 machine!” The Washington Times: “Put these e-mails from the top Oncologists on your website!” With a \$600 million investment, it’s certainly a major newspaper! Even The Washington Post as far back as 1/27/92 with a description of our patents: “10,000 people/day, said to cure anything, the curative power etc!” The article (Mexican Patent 239719) resulted in the sale of 100,000 machines! 1000’s of wells have been done using ONLY 10 gallons of water ONCE and it can last for years (city waste lagoons, Dole Foods contract). A young girl did over 200 wells with State Inspectors shaking their heads as to why this is possible (our website)! NOW, AFTER BUILDING A BOTTLING OPERATION, scientists can measure the Hydrogen Bond Angle (113.8 degrees rounded off to 114 degrees) using a Tunneling Scanning Electron Microscope. A child can use fulvic acid (a nutrient) to see the change in Water Properties! A TYPICAL COMMENT FROM A SCIENTIST in Zurich, Switzerland: “I have elephantitis. My legs swelled up like a balloon years ago and I can’t wear ordinary shoes. I have had your E5 machine for only 24 hours. I eliminated all that water and went to a shoe store and bought a pair of shoes size 10. Then, using only 100 watts of power, I couldn’t believe how much hydrogen I could produce using electrolysis...it violates Faraday’s Law! Why is that? Do you realize the importance of your discovery?” I told him you can add our water to other water to change the properties of vast quantities of THAT water! Since the Hydrogen Bond Angle has been increased from 104 to 114 degrees, it takes less energy to split the water molecule into hydrogen and oxygen! In the future, you will heat your home, produce electricity and power your car for pennies! \*From Dr. Norman Vincent Peale to Norman Rockwell, James Cash Penny, Lowell Thomas, Mrs. Delano and more!

# The Best of POPE BENEDICT XVI

## ◆ JESUS OF NAZARETH

*Holy Week: From the Entrance into Jerusalem to the Resurrection*

Reflecting deeply on the events of the final week of the life of Jesus, Pope Benedict brings to his study the vast learning of a brilliant scholar, the passionate searching of a great mind, and the deep compassion of a pastor's heart, challenging readers to grapple with the meaning of Jesus' life, teaching, passion, death, and resurrection.

JN2-H... Hardcover, ~~\$24.95~~ **\$12.95**

**Study Guide:** JN2:SG-P... \$7.95

**Audio Book:** JN2:A-D, 8 CDs, \$29.95

## ◆ JESUS OF NAZARETH

*From the Baptism in the Jordan to the Transfiguration*

In this bold, momentous work, the Pope seeks to salvage the person of Jesus from recent "popular" depictions and to restore Jesus' true identity as discovered in the Gospels, sharing a rich, compelling, flesh-and-blood portrait of Jesus, the central figure of the Christian faith.

JN-P... Sewn Softcover, \$16.95

**Study Guide:** JN:SG-P... \$7.95

## ◆ INTRODUCTION TO CHRISTIANITY

One of the Pope's most important, widely read books, this revised second edition is a remarkable elucidation of the Apostle's Creed that gives an excellent, modern interpretation of the foundations of Christianity.

INCH2-P... Sewn Softcover, \$18.95

## ◆ THE SPIRIT OF THE LITURGY

This profound, beautifully written treatment of the "great prayer of the Church" will help readers rediscover

the Liturgy in all its hidden spiritual wealth and transcendent grandeur as the very center of our Christian life.

SPIL-H... Hardcover, \$21.95

## ◆ LIGHT OF THE WORLD

*The Pope, The Church and The Signs Of The Times*

Never has a Pope dealt so directly with such wide-ranging, controversial issues as the Pope does in this book. Taken from a series of interviews with journalist Peter Seewald, the Pope tackles head-on some of the greatest issues facing the world of our time. LIWO-H... Hardcover, ~~\$19.95~~ **\$12.95**

**Audio Book:** LIWO:A-D, 6 CDs, \$24.95

## ◆ MY BROTHER, THE POPE

Msgr. Georg Ratzinger, the Pope's brother, writes about the close friendship of these two brothers for over 80 years. A unique window on the Pope's whole life, including the admirable character of his extraordinary family and parents, a beautiful portrait of Catholic family life.

MBP-H... Hardcover, ~~\$24.95~~ **\$12.50**

## ◆ GOD IS LOVE DEUS CARITAS EST

Deluxe edition of the Pope's beautiful first encyclical which clarifies the true meaning of love — human love and divine love — and how man was made for love. GIL-H... Hardcover, \$14.95

**Other Encyclicals:** *Saved in Hope*

*Spe Salvi* SIH-H Hardcover, \$14.95

*Charity in Truth Caritas in Veritate* LIT-H Hardcover \$14.95

## ◆ TRUTH AND TOLERANCE

Ratzinger engages the problem of truth and tolerance in contemporary society. This book is an invaluable asset to those who struggle to hear the

voice of truth in the modern religious world. TTCB-P... Sewn Softcover, \$17.95

## ◆ MARIA - Pope Benedict XVI on the Mother of God

A lavishly illustrated coffee table book with dozens of famous color paintings and sculptures of the Blessed Virgin Mary, accompanied by the Pope's profound Marian writings and meditations.

M-H... Hardcover, \$21.95

## ◆ CHURCH FATHERS

*From Clement to Augustine*

Pope Benedict's profound insights on the Fathers of the Church present these important figures of early Christianity in all their evangelical vitality. CHUFA2-H... Hardcover, \$14.95

## ◆ A SCHOOL OF PRAYER

Drawing on a wide range of sources, the Pope examines the foundational principles of the life of prayer, including the prophets, the Psalms, and the teachings & example of Christ, as well as insights from spiritual masters, the saints, and the Church's liturgy. OPRAY-H... Hardcover, \$17.95

## ◆ GOD AND THE WORLD

Ratzinger addresses a wide array of important questions on faith and with profound insights on how to live that faith in the modern world.

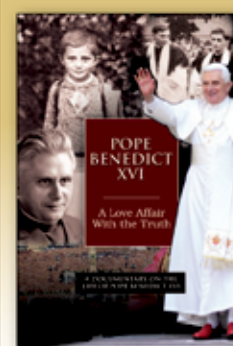

GODW-P... Sewn Softcover, \$19.95

## ◆ CHRISTIANITY AND THE CRISIS OF CULTURES

Ratzinger addresses the crisis of culture that is evident today in Europe and the Western world, challenging both non-believer and believer.

CHCRU-H... Hardcover, \$14.95

DVD

## ◆ POPE BENEDICT XVI

*A Love Affair With the Truth*

An in-depth biographical documentary film on the life of

Benedict XVI, from his childhood in Bavaria to his papacy, revealing a man who always sought and loved the truth.

**DVD** PBLA-M... 56 mins, \$14.95

# DEATH TAX TIMELINE

**1797** - to help pay for  
buildup of the Navy

**1802 - REPEALED**

**1862** - to help pay for  
the Civil War

**1870 - REPEALED**

**1898** - to help pay for the  
Spanish-American War

**1902 - REPEALED**

**1916** - to help pay for  
World War I

**2013 - NOT REPEALED**

**“Jim Martin** deserves particular credit for leading the movement to repeal the Death Tax.”

President George W. Bush

**“Jim Martin** came up with the idea of relabeling the estate tax as a “death tax.” Martin’s rhetoric was particularly brilliant as it made the tax seem especially cruel.”

Ramesh Ponnuru, National Review

# THE DEATH TAX

## A “TEMPORARY TAX” IMPOSED FOUR TIMES FOR DEFENSE PURPOSES

### DID YOU KNOW:

The Death Tax was last instituted to pay for WWI?

That conflict ended almost 100 years ago. Now is the time to drive a stake through the heart of the DEATH TAX for the fourth and final time!

“The 60 Plus Association is leading a re-energized nationwide fight to kill the Death Tax. On behalf of 7.2 million seniors, I am calling on Congress and the President for complete abolition of the Death Tax immediately - or until such time as World War I flares up again.”

**JIM MARTIN**

Chairman, 60 Plus Association

**Visit [www.60plus.org](http://www.60plus.org) if you support our efforts to bury the DEATH TAX**

The 60 Plus Association is a 20 year old non-partisan seniors organization working for • the repeal of the Death Tax • saving Social Security • repeal of Obamacare • affordable prescription coverage • lowering energy costs through sane, responsible environmental policies • less government and • lower taxes. The 60 Plus Association calls on vocal support from over 7 million citizen activists. 60 Plus publishes a magazine, Senior Voice, and a Scorecard bestowing awards on lawmakers of both parties who vote “pro-senior.” The 60 Plus Association has been called “...an increasingly influential senior citizens’ group,” and since 1992 has been acknowledged as the most effective “conservative alternative to AARP.”
