DI GI-TEX is ready to expand business with the US

Super Service for its US customers

Vietnam gets ready for a post-pandemic FDI boom

The Vietnam Trade Office in the USA, located in Washington DC, has been promoting trade and investment in the country, Prime Minister Nguyen Tan Dung stated at the end of last year.

The Vietnamese Prime Minister said the US was a key partner in Vietnam’s foreign trade and the country is committed to continuing and developing its economic cooperation with the US.

The Vietnam Trade Office in the USA is expected to attract more FDI from the US.

The Vietnam Trade Office in the USA, which was set up in 2010, is now one of the three leading foreign embassies in the country.

OCTO-TEX is a leading Business Process Outsourcing (BPO) company founded in 2003 in Vietnam by German entrepreneur Rolf Schellenberg. It has now grown to 1,500 people and provides a full range of outsourcing services to businesses including data entry and document processing, help desk, center, scanning and archiving, digital solutions as well as IT and software.

According to Tien, US investors are particularly interested in the country’s automotive and construction sectors, as well as in the fields of education, healthcare and tourism.

The Vietnamese government is also promoting Vietnam as an attractive destination for foreign investors, as well as a hub for companies operating in the ASEAN region.

The government has set up a number of export processing zones (EPZs) and special economic zones (SEZs) to attract foreign investment.
