Two years in, the pandemic continues to shape our lives in fundamental ways. Americans are still spending significantly more time at home, limiting trips out to eat or shop, avoiding buses and subways and going into work far less than they did in the weeks before COVID-19 struck. Google has been tracking Americans' whereabouts over the last couple years and created a Mobility Trends tool to compare any given period during the pandemic to a baseline of before the pandemic (Jan. 3-Feb. 6, 2020). 70% **Retail and recreation** 60 **Grocery and pharmacy** Residential **Transit stations** 50 **Parks** Workplaces 40 30 20 10 -10-20-30-40-50SOURCE: OurWorldInData's compilation of Google's COVID-19 Community Mobility Trends THE WASHINGTON TIMES -60% Feb. 17, 2020 March 23, 2021 May 27, 2020 Sept. 4, 2020 Dec. 13, 2020 July 1, 2021 Oct.9, 2021 Jan. 17, 2022
